Bicyclists Must Obey Same Traffic Laws as Motorists

Michigan, famous for its automobiles, now has almost as many bicycles as cars. Bicycle use peaks during summer months in tourist towns such as Grayling and here are a few basic rules for safe bicycling.

- ★ Obey all traffic signs and signals.
- ★ Ride on the right side of the road as close to the edge as possible.
- ★ For riding after sunset, a bike must have a strong front light and a good rear reflector.
- ★ Even though bicyclists have a legal right to share the road, it's safer to move over to the shoulder of the road when an automobile approaches.
- ★ Parents are responsible for children obeying bicycling laws.

REFRESHING WORK — Lu Denham, of Highland, found a cool spot in the AuSable to escape from the heat and soak the baby bassinet she's weaving to keep the reed pliable. "It's far easier weaving here than using the bathtub at home to soak it," said the former Grayling resident who thanked Dave Ross of Penrods for letting her use the channel along the AuSable. Board Approves 1st Step For Placing New School Site on Sept. 24 Ballot

BY JON THOMPSON

The Crawford AuSable School Board approved the first of three steps to place a new middle school proposal before voters Sept. 24.

The board authorized the superintendent to complete a proposal and budget for a new building located on school land adjacent to the Grayling Elementary School. The new middle school would house 600 students grades 5-8 and be located as far away from the elementary school as possible, Superintendent Kent Reynolds said.

Reynolds said the board has had a lot of input since the last election and they felt a proposed in-town site

would have a better chance of passing. Reynolds said the new site would solve four problems voters were concerned about with the previous attached building to the high school. The four concerns were about the mixing of middle school and high school students at the attached building site, moving the middle school out of town, the question of sewage disposal, and transportation to the out-of-town site.

The vote to proceed with the new proposal program passed 6-1 with Roger Moshier voting no. He felt the September date was too soon to bring the issue back before the voters.

The issue can not be placed on the August primary or November election because the voting district boundaries are different than school districts.

In other school board news from the regular Monday night, H. Artn Stephenson was sworn in as a new board member and Bernadine Dosch was elected president replacing Kathleen Burkley, who did not run for re-election. Bill Morford was named vice-president, Mary Allen secretary, and Roger Moshier treasurer.

A special board meeting will be held Monday to vote on the second step necessary to place the new middle school proposal before voters Sept. 24.

Dial-A-Ride Millage Renewal Question on August Ballot

Today's article is the second in a three-part series of interviews with Robert Chappel, Chairman of the Crawford County Transportation Authority Board. This interview probes the human side of the Dial-A-Ride millage renewal question.

In response to questions Chappel noted that the defeat of the millage renewal issue would have a direct and adverse effect on two distinct groups of individuals — the individuals who receive the service and those who provide it.

"The system currently employs sixteen full-time employees, six part-time employees and one individual as contract labor. Of the sixteen full-time employees, eight are drivers, two are mechanics, two are dispatchers, one is the operations supervisor, another is the bookkeeper and one is the system's secretary," says Chappel.

"The Board is particularly pleased with the degree of dedication generally exhibited by Dial-A-Ride employees. This is especially true when we consider how difficult it is to support and raise a family at the wage level the system is able to provide," he said.

When asked if the Dial-A-Ride employees had recently received a raise, or if they could expect one in the near future, Chappel responded: "Over the last twenty months the Dial-A-Ride employees have not received a raise, nor have they received any sort of a cost of living adjustment. In short, their hourly wages have remained fixed at the level they were set at as of October of 1982. Working within the confines of the present budget it is difficult

to see how this situation can be significantly changed in the foreseeable future. That is to say, I don't expect to see any wage changes which could be called a real increase in wages. However, the Board does hope to be in a position from which it can provide a cost of living wage adjustment in the near future."

When asked to comment on the impact of a loss of Dial-A-Ride service for the ridership Chappel said: "The effect of a loss of Dial-A-Ride service would range along all points on a continuum from 'mild inconvenience' to a 'serious restriction of individual mobility.'"

"On the one hand, we know we have riders who use the system merely because it is convenient to do so. If the system stopped operating tomorrow they would find another means of transportation."

"On the other hand, we have riders like Paul and Marie Petroit. Both Paul and Marie have MS disease. Both are currently restricted to wheelchairs, and both rely on Dial-A-Ride service as a primary means of transportation. The loss of the Dial-A-Ride system would constitute something far removed from a mere inconvenience for the Petroit family."

Chappel then went on to point out that during the month of May the Crawford County Transportation system carried 229 wheelchair confined passengers. In addition to this, 1682 passenger rides were taken by senior citizens during the month. As Chappel noted, the importance of the service for senior citizens would be difficult

to exaggerate: "A significant number of our senior citizens, while remaining basically very healthy, have nevertheless experienced some of the normal attrition associated with the aging process. Their eye-sight, hearing, and reflexes have diminished to varying extents over the years. Many of these individuals believe Dial-A-Ride transportation is a safer as well as preferable alternative to driving themselves. The Transportation Authority is extremely pleased to be able to serve these people. Our buses take them shopping, to laundry-mats, to church, doctors appointments, and almost any other place you can imagine. These people, like the Petroits, would be the individuals most hurt by a defeat of the millage renewal issue. They are also the people most of us would prefer to be the least inconvenienced."

Military and DNR Work Together Cleaning Up 5,000-Gallon Fuel Spill

By Jon Thompson

Camp Grayling, the Dept. of Military Affairs, and the DNR have joined forces working to clean up an estimated 5,000-gallon fuel leak near the Mobilization and Training Equipment Site (M.A.T.E.S.).

A hole about the size of a nickel in a line to underground fuel tanks was responsible for the leak, said John Alford, of the DNR ground water quality division.

Colonel Ivan Gwilt, Camp Grayling commander, said he thinks military personnel caught the leak the day after it started. On June 25 they noticed a shortage in fuel following a delivery. The next day more fuel was delivered and diesel fuel was spotted bubbling to the surface about 3 p.m.

The DNR was immediately called and Gwilt had equipment at the scene ready to start digging that

night. Predicted thunderstorms caused the DNR to postpone digging that night for fear the rain filling a hole would cause the fuel to move faster underground.

Gwilt said his roads and grounds personnel began digging the next day under DNR supervision and have been working day and night digging and pumping the fuel out. A geological firm from Traverse City has been hired and three test wells have been sunk about 400 feet away from the leak to the south, the direction the groundwater flows in that area.

Alford said there is very slow groundwater movement in that area and the wells show no movement of the fuel. He said the fuel leak is down probably 18 feet to the top of the water table and removing all the fuel from the ground will probably take a minimum of one

year. He said one well will probably have to be sunk below the water table to pump out water and lower the water table. Another well will probably have to be sunk higher in the aquifer to recover the fuel.

Alford said the military has been very cooperative and got right on the leak as soon as it was discovered.

The three 44,000-gallon fuel tanks where the leak occurred are located between the M.A.T.E.S. main maintenance building and railroad tracks south of the complex. The fuel tanks are used for Camp Grayling operations.

Gwilt said the tank storage systems were not very old but they deteriorate fast. The military had plans to move the tanks out to Camp Grayling near the new warehouse and Gwilt is asking the Dept. of Military Affairs to consider moving the plans up on the priority list.

LMPOA Signs Contract For 'Snooper Scooper'

The "Snooper Scooper," a device used to detect sources of pollution in lakes, will be used at Lake Margrethe late this summer.

At the annual meeting of the Lake Margrethe Property Owners Association July 7th, newly re-elected LMPOA president Garland (Bud) Joyce signed a contract with the Northeast Michigan Council of Governments (NEMCOG) to obtain the services of the pollution detection device.

The "Snooper Scooper" — one of only two of the devices in the United States — can detect low levels of phosphorus, amino nitrates, and other forms of nitrate pollution and pinpoint where the pollution is entering the lake.

Bob Watkins, NEMCOG representative, will use the device sometime after the first week in August taking about ten days to initially sweep the lake. Watkins will retest any areas showing pollution to locate the source.

The lake tests will be completed and evaluated with a written report submitted by NEMCOG.

"We have waited more than three years for the use of this device and will fully realize its value in the protection of Lake Margrethe," Joyce said. "We are appreciative of the matching support given us by Grayling Township (Both the LMPOA and Grayling Twp. contributed \$750) plus the county's portion of its annual dues to NEMCOG."

Joyce said 95 percent of the funding for the project is federal money from the National and State Clean Waters Acts.

A 1978 study sponsored by the LMPOA indicated Lake Margrethe is extremely vulnerable to mesotrophication or rapid aging because the lake has a very small watershed area by which the lake replenishes itself with fresh water. This means if

Lake Margrethe becomes too polluted, it will remain a "dead lake" and never be able to recover like some lakes with large watersheds, said Joyce.

Lake Margrethe is currently described by the DNR as "somewhat mesotrophic," Joyce said, and a 1978 study said the lake area reached the saturation point for septic tanks back in 1973. Joyce said all septic tanks built since 1973 should have allowed four feet between the water table and septic tank and contended that the District 1 Health Dept. has been overlooking or ignoring septic tank violations at Lake Margrethe.

Joyce concluded the annual meeting by inviting all Lake Margrethe property owners to join the LMPOA. Membership is \$10 a year.

Other officers elected at the meeting were Glen Chapin, vice-president, Rose Duley, secretary, and Frank Davison, board of directors.

New Activities Planned For 1984 County Fair

BY JON THOMPSON

A break-dance demonstration, backwards canoe race, and a chili cooking contest are among several new events being added to the 1984 Crawford County Fair, Aug. 24-28.

The county fair, after a

successful debut last year, will again feature a variety of exhibits of garden vegetables, livestock, and handicrafts. Premium books are now available at local banks, the county courthouse, the county library, Adams Photography, Olson's, and

all Dial-A-Ride buses. Fair board members are arranging for a group from Bay City to demonstrate break dancing. The backwards canoe race will be one lap around the island at the pond at Hanson Hills.

The chili cooking contest will be open to everyone with a \$1 entry fee. Prizes will be given for the most original batch of chili, the best overall tasting, and - pity the chili contest judge - the hottest chili. The masterful chili makers in the county must concoct one gallon of their version of the Mexican mix for the contest. All the chili entries must be prepared at home. For more information call Lloyd Nevins at 348-9790 or Jim Adams at 348-3020.

The 2nd Annual Crawford County Fair will also feature helicopter rides, hot air balloon rides, and tug-of-wars over the pond between local softball teams and teams from local bars. The winners receive bragging rights as the strongest men or women while the losers win wimp awards and a swim in the pond.

From Our Corner...

Nice things we like to pass on to our readers...

Barney Dukes, retired Colonel of the Indiana National Guard and George Pamerleau who lives here year around and are neighbors of Chuck and Nancy Talbot at McIntyres Landing on Lake Margrethe experienced a rare treat on the morning of the 4th of July when a group of teen-agers raised the American flag while standing at attention with their right hand over their heart and singing the National Anthem...Barney stated, by golly, it brought tear drops to my eyes with this display of young patriotism, it's something you don't see everyday, and especially from a small group...so, a Tip of the Derby to Dawn and Nancy Talbot and their friends Sue Tibedeau and Vicki Privette for your display of good old fashioned Americanism...this restored our faith in the future through our younger generation, especially after hearing just the other day from Arnie Mauren that when he was at a recent Tiger baseball game there were about six grown-ups who refused to even stand when they played the National Anthem prior to the game...this kind we can do without...

Another noteworthy event that also happened on the 4th of July and of interest to the golfers was the fact that Dr. Paul Junttila aced No. 8 hole while playing in a threesome of Jack Wilson and Bill Hunter at the Grayling Country Club...Doc stated he figured he might just as well start the fourth with a bang...playing in a partial fog in the morning he used a 6 iron but added, this wasn't quite the thrill as the first one he got about 23 years ago on No. 3 on the same course...that also went along with a 300 game he had bowled at the American Legion Lanes that year...

Was good to see Gene and Marge Case last week just before they left to go back to Hudson, Florida where they live now, they said they see quite a few transplanted and winter Graylingites down in the sun belt...

It seems like about every two, three weeks we have to explain in our column things we have to have for a Letter to the Editor to be considered for publication, and one of the most important is that all letters must be signed with the address and phone number of the author of the letter, and this does not mean a letter that the signature is typed, we still need the written signature...we received such a letter in our Monday morning mail and even though we do not run letters received after Friday noon until the next week, the one Monday was typed with the signature also typed...if the writer will come into the office and sign it we will consider it for publication, but not until...another thing we try to stress is the length of letters, we feel a writer does not need to write a book to get most opinions across to the readers, and also the space that governs the publication of such a letter...another important thing we have to watch out for is libelous letters...we are as responsible as the writer when a letter is published...there are occasions when we will withhold a writers name if we feel they may get a reprisal from it, but would rather not...we feel a letter means more when it is signed by the individual...so bear in mind when you write your letter to be sure and sign it, if you don't, you waste your time and ours...

It doesn't seem possible we are starting the second half of 1984 and now that the 4th of July is past, it won't be long until Labor Day and the smell of autumn in the air...what a gruesome thought...

Tom St. Germain, not to be out done by Doctor Paul on the local links aced No. 3 on Monday morning, July 9th using a No. 7 wood...Tom was playing with John Wejrowski and Jack Wilson who also witnessed Doc's ace...this also was Tom's second hole-in-one at the Grayling course as he had one in 1979 on the 8th hole...he also stated the second one just doesn't have the thrill as the first one...

This takes care of this week's efforts so will bid T.J., Stefany and Amber goodnight, and to all of our readers do have a nice weekend, summer is short in the north country...

The Bible Speaks

From Calvary Baptist Church

WHY IS AMERICA GREAT?

How is it possible for six percent of the world's population to be able to produce and possess roughly one-half of the world's goods? It is not our age. Our nation is merely a child of 200 years. It is not our natural resources. South America is equally blessed with natural resources, and she was developed by men seeking gold. Our forefathers came to North America seeking freedom to worship God. It was not our superior intelligence. The cultural centers of Europe and the rest of the world had far greater resources of human knowledge and wisdom.

A young French aristocrat, Alexis de Tocqueville, visited the United States in 1831, and later wrote his massive work "Democracy in America". His conclusion about our nation's greatness is extremely accurate and concise: "America is great because she is good; when America cease to be good, then she will cease to be great." While this observation is true, it is merely an accurate observation of a Bible principle in action. "Righteousness exalteth a nation: but sin is a reproach to any people." Proverbs 14:34.

Walter Knott of Knott's Berry Farms has listed 5 reasons for America's Success: (1) "We had a belief in God - and this religious background made us reliable and dependable with one another." Even liberal Supreme Court justice, William O. Douglas, wrote as recently as 1952, "We are a religious people whose institutions presuppose a Supreme Being."

(2) "We had limited government - and this limited our national expenses and gave us surplus capital for tools and a good living standard." Woodrow Wilson said, "Liberty has never come from govern-

ment. The history of liberty is the history of limitation of governmental power, not the increase of it." While liberty frees men to gather wealth, liberty is far more valuable than wealth. Patrick Henry said, "If my family have freedom, and I have not given them one shilling, they would be rich. If they would not have freedom, and I have given them the whole world, they would be poor."

(3) "We had individual freedom - every man could work at what he wanted." "America became a place where the common man could be uncommon, where a man could become whatever his energy, his intellect and his manhood could make him. This was the challenge, the hope, and the American heritage that touched and inspired hearts everywhere."

(4) "We had incentive - which was simply the right to keep the fruits of our labor." Increased government taxation is the great enemy of our incentive system. The Puritan work ethic which viewed work as a gift from God and a way to glorify Him, brought dignity to work.

(5) "We had competition - the thing that makes businessman and employee alike serve his fellow man well."

To keep America strong and free we need more stress on God than government. We need more individual courage and less dependence on government. We need our faith restored in our God, our country and our family.

It's the first book devoted exclusively to the housing needs of America's growing older population. What's more, it's based on the intimate experiences and provocative insights of thousands of older Americans who have shared their experiences and firsthand

knowledge with the authors—Michael Sumichrast, an economist with the National Association of Home Builders; Ronald G. Shafer, a Wall Street Journal features editor and former housing reporter; and Marika Sumichrast, who has extensive experience in retirement housing and real estate management.

Drawing on the experience of more than 1,400 retirees the book includes information on the importance of planning, renting vs. home ownership, cashing in on housing assets, pros and cons of retirement communities, what to look for when buying land, continuing-care facilities and condominium shopping. The book, widely praised when first introduced in 1981 as *Planning Your Retirement Housing*, has received the praise of critics and observers of the housing scene.

Governor Announces Protection Plan For Great Lakes

Warren M. Hoyt, Executive Dir., MPA

Governor James J. Blanchard has announced a plan to combat toxic pollution and prevent future water diversion of the Great Lakes.

In a recent speech to the Michigan United Conservation Clubs, the governor said defense of the lakes is entitled to the marshalling of full resources of Michigan and neighboring states and provinces, who he said must initiate protection measures rather than waiting for the federal government to act.

He labelled the Great Lakes as a commodity that cannot be bought or sold.

"We can set out on two overriding courses of action — to develop a campaign that will eradicate toxic chemicals from the lakes and provide full restoration of our outstanding fisheries and to construct a legal fortress that will stand strong against any attempt to divert Great Lakes water," he said.

The Governor reported he is asking for swift approval by the legislature of a short-term ban on major diversion of Great Lakes water, which would be succeeded by a larger water policy by 1987 for conserving, managing and using the water.

Blanchard said that would be part of building a legal case that diverting water would be unreasonable, contrary to conservation and detrimental to public welfare.

He also designated Attorney General Frank Kelley to chair a task force to gather all needed information for a legal case.

The governor said he also wants language in the Great Lakes agreement giving Michigan a say in all proposed diversions, including those within the Great Lakes basin in other states. He said he would seek a forum for bringing together all lakes' interests to address common problems.

Blanchard added he is taking several steps to identify and combat toxic chemicals in the lakes, including a request that the Department of Natural Resources develop a strategy to identify sources of airborne chemicals and recommending

pollution abatement measures and to develop a strategy to clean as many as 39 areas of key toxic chemical pollution and other areas of impaired use along the lakes.

He asked the Department of Public Health to renew research on the health effects of eating contaminated fish, while the Natural Resources Commission is to recommend a program to test and analyze fish as a barometer of contamination trends.

The governor said he is directing environmental agencies to place a priority on identifying point sources of toxic discharges and gather evidence if they are in violation of existing laws or permits so the attorney general may take action.

To continue development of the lakes as an economic and recreational resources, the governor said the DNR would coordinate more varied fish plantings, and target funds on specific species with the best chance of permanent reproduction.

POLL SHOWS SUPPORT FOR COLLEGE TAXES

A higher education poll conducted for the State Board of Education shows public support for higher community college district taxes is needed to continue to provide services and for higher state aid to universities which agree to freeze tuition rates.

The poll showed 67 percent would vote for community college millage increases. That compares to a nearly equal percentage (68) which give their colleges excellent or good ratings.

The poll also showed 72 percent believe four-year colleges which freeze tuition should get more state aid, which was a feature of the governor's original budget proposal.

The first-ever survey of public attitudes on higher education also showed 55 percent believe that planning and coordination for colleges and universities should be done by the state board.

Colleges currently operate independently, with boards making policy and program decisions.

G.H.C.C. Presents a "Simulated Wedding"

A very special evening was enjoyed by all the residents, 50 guests and the Grayling Dance Club under the direction of Mr. Charles Kirk. The Dance Club put on a "Simulated wedding" with a reception, dancing and refreshments compliments G.H.C.C. The Dance Club really went all out in recreating this wedding. The Bridesmaids wore floor length gowns and carried baskets of fresh cut flowers. The groomsmen were in formal attire accented by boutonnieres.

Repeating their vows were Edgar and Velma Lødbell. The bride wore a white floor length gown accented with satin ribbons and delicate lace. Her picture hat was covered with fresh daisies and greenery and a shoulder length veil. The groom was dressed in a three piece suit of white. The parents of the groom were portrayed by Howard Roberts and Mary Birt, who are residents of the Center. The parents of the bride were portrayed by Earl Westbrook and Angie Kirkum.

The wedding party consisted of Joe Kessler as best man, Fran Olsen as maid of honor. Other attendants were Frank and Lucile Hoffman, John and Helen Leykoff, Nick and Evelyn Shuraff, Charles and Lillian Kirk, John Prebble and Neta Bieske, Treva Engle. Serving as ushers for the service were Frank Hoffman and John Prebble.

Barnie Engel did a wonderful job in his role as the Pastor, in performing the official wedding ceremony. Kay Gay, Social Service Director, provided the piano music for the service. The Wedding Song was presented by Lorna Morse, on the guitar with a beautiful vocal rendition. Mimi Wilson, Activities Director welcomed residents, families, and guests. Briefly stating reasons for taking time to "share" through a reading stating the necessity and importance of reminiscence for all of us to reflect, look back, and take time to evaluate the meaningful moments of our lives over the years that provide beauty and comfort.

Others participating or contributing something in the service were Flowers by Josie, Jon Thompson of the Avalanche, and of course all of the Dance Club members who were a part of this special evening and gave of their time to assist in recreating the "simulated wedding." Thank you.

Doodles From The Tall Timber

Wendell L. Hoover
Park Interpreter

The killdeer is a fairly common bird in open country. Here in the Park, I seldom see any but on beaches and plowed fields, they are often to be found. You might confuse them with a plover at a distance, but the killdeer has two black breast bands instead of the one which is common to other ringed plovers. Also conspicuous is a rusty spot at the base of the tail when in flight.

They spend the summer as far north as Northern British Columbia but may winter in Venezuela. Their nest isn't really a nest at all but a semi-cleared spot among gravel or rocks. Usually they have two to four buff-white eggs spotted with a chocolate color on the larger end. This spotting serves as very good camouflage. The eggs hatch in twenty-seven days with both adults active with the rearing process. They feed largely on insects and earthworms but are particularly destructive to mosquitos, flies, grasshoppers, armyworms, and wireworms.

The killdeer is a good runner when on the ground and will often feign injury when its nest is approached but, once on the wing, it is a superb flier which may reach speeds up to fifty-five miles per hour.

Arts Festival at Roscommon Saturday

If you're looking for fun this weekend in northern Michigan, the Roscommon Arts Festival, slated for Saturday, July 14, promises just that, in double doses.

Beginning at 9:30 a.m., Wallace Park and the adjacent Business District will be filled with art work by seventy artists and craftsmen, including dolls, folk art, stained glass, pottery, photography, drawing, basketry, wood carvings and other wood items, sculpture and jewelry, to name a few.

Twenty-seven of these artists will be in Wallace Park, the home of the Juried art show, and will be competing for prizes which will be awarded at a brief ceremony at noon in the park. \$600.00 in prize money was donated by the Roscommon Business Association, and will be divided amongst five winners; first prize: \$250.00, second prize: \$150.00, third prize: \$100.00, and two honorable mentions at \$50.00 each.

The R.C.M.S. Arts Council is donating \$50.00 for the Barbara Keiler Memorial Award, an award established in honor of the late Mrs. Keiler's dedication to the Art Fair in its early years.

This award will go to the best local artist entered in the festival, of which there are seven. The judges will be introduced at the award ceremony along with the winners.

Entertainment will be part of the day's fun, and like the festival itself, is free. Events will be held in town and in the pavillion in the center of Wallace Park.

Wrapping up the day's activities on stage is the Roscommon-Ogemaw 4-H Performing Artist Troupe, a group of twenty-five boys and girls between 11 and 18 performing modern and tap dancing to popular music, including "Flashdance", "P.Y.T.", "Puttin' on the Ritz", as well as a variety show. These kids have no dance training, just interest, and rely on community volunteers. They are under the direction of Glen Painter of Rose City, and Penny Webb of Roscommon.

Entertainment will take place in town as well as in the park, beginning at noon with the Law Square Dancers of St. Johns, Mich. They will be dancing in front of the Male Box at the corner of Fifth and Lake for an hour then and again at 3:15.

The 4-H Performers will be at this same corner doing their same show from 1:00 to 1:45, and "Aladdin's Lamp"

The minutes of the previous meeting of May 14, 1984 and May 21, 1984 were read. Commissioner Parker made a motion to accept the minutes as read, seconded by Commissioner Cason. All voted in favor, minutes approved.

Payroll Voucher Number 11 in the amount of \$23,200.24 and Material Vouchers Numbers 341 through 353 in the amount of \$16,657.88 were presented to the Board for payment. Commissioners Cason made a motion to accept the vouchers, seconded by Commissioner Parker. All voted in favor, vouchers signed.

Andie Neilson, Chairman of Roads & Bridges, appeared before the Board regarding conditions and traffic of certain paved roads.

Bernie Fowler, Grayling Township Supervisor, appeared before the Board to inform them of the input received from the public hearing regarding the blacktopping of Jones Lake Road. The Board of Road Commissioners decided that the scheduled work could be accomplished.

Permits were reviewed at this time: General Telephone to bury communication cable on Willows Road in South Branch Township, and a permit from Ralph Caseman to place an antenna cable across Shaw Park Road in Grayling Township. Both permits were signed.

A discussion was held on the resurfacing of West Higgins Lake Drive in Beaver Creek Township and a motion was made by Commissioner Parker, seconded by Commissioner Cason that a request be made of the Roscommon County Road Commission to continue the resurface paving of West Higgins Lake Drive from the Roscommon-Crawford County line to North Higgins Lake Drive, a distance of approximately 0.27 miles. Chesapeake Bay

Nearly 200 miles long and 30 miles at its widest (near the mouth of the Potomac River), the Chesapeake ranks as the largest estuary in the country. Its tidal shoreline totals more than 8,000 miles, with so many nooks and crannies that it is possible to spend most of a lifetime exploring by boat without ever returning to the same cove.

EMERGENCY AMBULANCE DRILL — Jim Gray, Crawford County Ambulance Corps member, and Sue Sadjak, Frederic Ambulance Corps member, wave for help by their capsized boat in the top photo during a emergency ambulance drill Thursday night, July 5, at Lake Margrethe. In the middle photo ambulance crew members Jeff Bond, Bob Kelly, and Kathy Kelly dive into the water to help Gray and Sadjak, who pretended to have neck and back injuries. In the bottom photo, Bond and Kelly start to lift Sadjak aboard a pontoon boat owned by Duane Brooks. Twelve of thirteen ambulance crew members participated in the drill. Sheriff dept. divers Scott Feldhauser, Jim Golnick, Thane Doremire, and Todd Golnick also found a dummy in 18-20 feet of water as part of the drill. Ambulance crew members weren't told it was a drill until they reached the accident scene. (Photos by Jon Thompson)

Dial-A-Ride
Mr. David Frederick
Grayling Airport
Grayling, MI 49738

Dear Dave,

While authorities were tracking suspects two weeks ago, Dial-A-Ride personnel had a high concern for my children (we live in the vicinity where suspects were located) as they were scheduled to take Dial-A-Ride home that afternoon. Due to the Dispatcher alerting me, my children were brought home safely by Dial-A-Ride through alternate plans.

Dial-A-Ride has always had a high concern for its passengers and especially when it comes to our children in this community. I just wanted to take this opportunity to "Thank You, Dial-A-Ride" for all your transportation assistance, concerns and safety for all of us who ride your buses.

Your service provides a little more flexibility and accessibility for our family as well as being a big time saving factor for me, at an affordable price. We are one family that would find it very difficult being without Dial-A-Ride.

Keep up the good work! You certainly are appreciated.

Very truly yours,
Barbara Hinderleider

Dear Editor:
On March 29, 1973, the last U.S. Troops left Vietnam. Since then 136 months have passed and 2,498 American servicemen are still in Vietnam. They are officially listed as Prisoner-of-War/Missing-In-Action (POW/MIA).

July 20th, 1984 is the Prisoner-of-War/Missing-In-Action National Recognition Day. In honor of those POW/MIA's, the members of Vietnam Veterans Association, Chapter 68 are sponsoring two awareness events in Petoskey.

First a march will be held on Friday, July 20th. It will start at Elizabeth Street in Petoskey and go to the Vietnam Veterans Memorial at Pennsylvania Park. The march forms at 6:00 p.m. and starts at 6:30. Dr. Wesley Hager will give benediction at the memorial.

On Saturday, July 21st there will be a walk from Bay Shore to the Vietnam Veterans Memorial. This walk starts at 9:00 a.m. Seventy-seven balloons will be released at the memorial in recognition of the seventy-seven POW/MIA's from Michigan.

These events are not just for Vietnam Veterans. When President Reagan spoke at the burial of the Unknown Soldier from Vietnam, he said for us not to forget the ones still missing. We invite everyone to help us show that the citizens of Northern Michigan have not forgotten the POW/MIA's. Please plan to attend these events in Petoskey on July 20th and 21st and Help Show that Northern Michigan Still Cares!

Dear Whitey,

My employer graciously paid me for the 4th of July and I did not even have to work for the day! But, lo and behold, there was no celebration of Independence Day in my home town and I spent a relatively uneventful day celebrating the 208th birthday of the United States of America and my freedom.

Grayling's Independence Day was postponed until the 7th. Why? July 7th is not Independence Day — it is just one of four Saturdays in July. The only reason I can think of for this change is that more out of towners are in town on Saturdays, and therefore more tourist dollars to lure into local tills. Being a year around resident I feel overlooked, unimportant and dismissed.

Perhaps during the winter holidays I will regain my esteem as a Crawford County resident. I am sure I will be urged to "Shop Grayling First" at that time and once again, no matter how short lived, my interest and dollars will be solicited locally. In the meantime I think I will go fishing.

Sincerely,
Jan Reynolds

U.S. Senate Candidate Dunn Visits

Jim Dunn, campaigning for the U.S. Senate, visited Grayling July 7 in his bid to win the Republican nomination in the August primary against Jack Loumsa. The winner of the Republican primary will face incumbent Carl Levin in November.

Dunn served as a United States Congressman from Michigan from 1980-82 before losing a re-election bid by only 6,000 votes. During his two years as a Representative, Dunn was a strong advocate of fiscal responsibility and economic development, introducing legislation to strengthen the auto industry and promote Michigan business and jobs.

Born in Detroit in 1943, Dunn attended Oakland County public schools. He received a bachelor of arts degree from Michigan State University in 1967 and expanded his summer house painting business into a homebuilding company.

Dunn is a member of the Michigan and Lansing Chambers of Commerce and served as Lansing Chairman of the 1981 International Year of Disabled Persons.

Dunn said he agrees with President Reagan on most issues, except abortion (Dunn is pro-choice) and the Equal Rights Amendment (Dunn support it).

Chamber Chatter

By Joyce Kolka

The struggle of making enough money available for the promotion and staging a Milltown Festival is always a challenge. Money is needed to buy prizes for the many contests that are free to the participants. Visiting School Bands have to be paid for their travels and they have to eat too. There are many advertising preparations for the event that requires the hard cold cash. Coming through again this year is McDonald's Hamburgs of Grayling. They are offering to the Milltown Festival Committee a proposition of tickets. The Committee will sell the tickets for \$1.00, with 40 cents going to McDonald's and 60 cents remaining with the Committee. This is a good way of raising money thanks to the generosity of Dean Molnar, Mgr. of McDonald's. The customer still gets a dollar's worth of value, but the Festival Committee gets 60% of it. John Cheren has been spearheading the McDonald food ticket program.

Another money-raising program is in the charge of Irv McIsaac called the 50/50 drawing to be held during the Canoe Racing ceremonies on July 28, about 8:45 p.m. "Servin' Irvin" has a special committee to help out with John Naour as first assistant. Others that have been asked to help out include Bob Hickey, Ray Swiercz, Larry McNamara, Chuck Fick, Mike Branch, Ray Lange and Col. Ivan Gwilt. Along with the effort of these fine gentlemen, the Chamber will mail 5 tickets (worth \$5.00) to each member asking for their support. Included in the plea for financial support will be a complete program of the Festival with time and places for every event. Tickets will also be available from the businesses and other locations including the Chamber of Commerce Office.

One of the most important events, besides the Canoe Marathon Race, is the big Parade. It won't be big, unless we make it big. We need more entries for the parade. Entry blanks are available at the chamber and everyone is welcome. C'mon, I'm sure your organization would want to be represented in the big Parade. Even the Rotary Club will have a float this year. Your organization should have one too! That's the spirit!!!

This week we welcome into chamber membership Goodale's Mini Storage, located in the Industrial Park and owned by Loren Goodale III. A grand opening is being planned for Thursday, July 19th at 2:00 p.m. Everyone is welcome. Welcome aboard, Loren.

CHURCH DIRECTORY

Great Day

Nothing like it—the promise of happiness that greets you when you're young, and ready to explore life.

Later there come days you're not so sure. The afternoon and evening of life seem less inviting. Or are we less ready for the changing challenges the years bring?

God gives us each day. How we use it is our responsibility...

Just about everyone agrees that

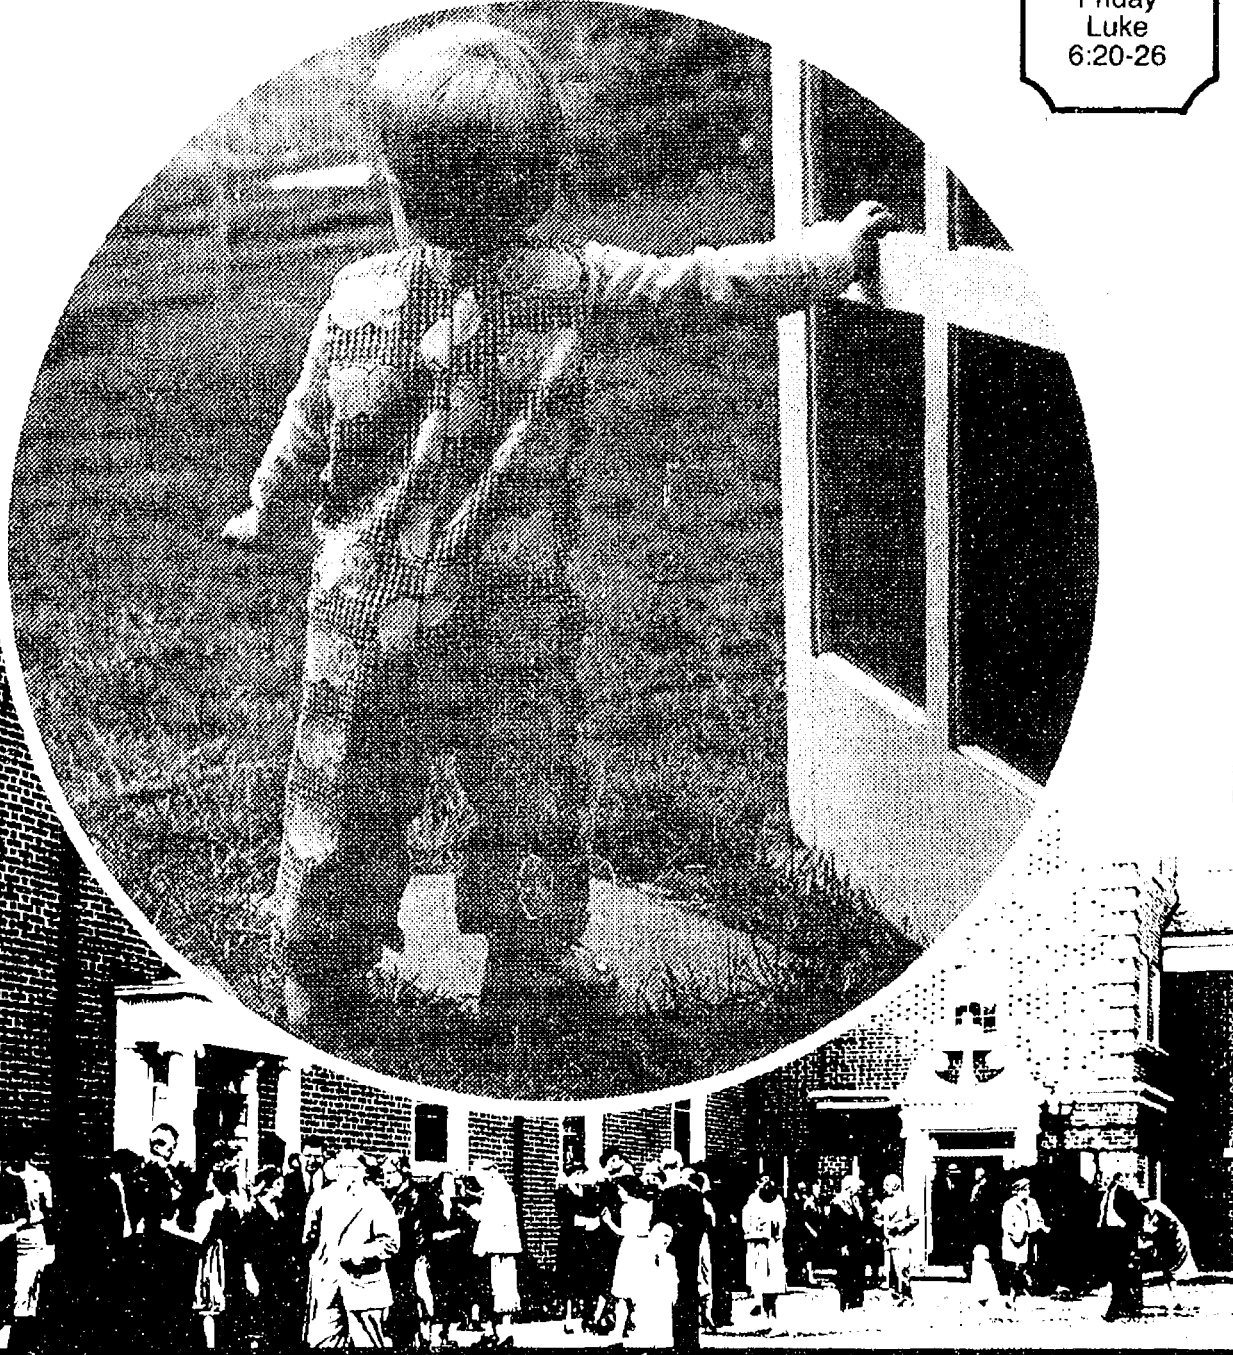

a little fellow facing the morning of life needs religious training.

The expression and development of our religious capacities is equally important when we're older. The Church is for families...for everyone.

Morning is simply the day's beginning. Faith brings mornings fulfillment. Then it can become a great day.

However, both the Counseling and the Recreation have been going very well.

This week's activities include: Canoeing on Monday starting at 9:00 a.m. A two day camp-out — Our campers will meet at the office at 10:00 a.m. on Tuesday and will return to the office by 2:00 p.m. Wednesday. No frogs or snakes, please!!

American Legion Auxiliary News

by Laurie Jensen, P.R. Director

The Post has been saddened the past month with the passing of two members. The men lost their Chaplain, Truman Marlatt. Truman was probably the happiest and friendliest man from our Post that I know of. He was always very faithful with his duties. Whenever one of our men were sick and in the hospital, Truman was there to visit him. We will truly miss Truman around our Post.

We in the Auxiliary lost one of our Past President's, Johanna Gorman. Johanna was a life member in the Auxiliary. She had been an Auxiliary member for 51 years. Can you imagine that? Johanna was truly dedicated to the Auxiliary. She believed strongly in the Auxiliary. Even though Johanna was unable to attend our meetings lately except for once in awhile she would tell me that these articles kept her quite informed with what we have been doing. These articles made her happy because the Grayling unit was finally able to receive the recognition that it deserved. It told people that yes we were and are doing things.

This is why I write these articles, I want everyone to know what is happening with the Auxiliary. Hopefully, you will become interested enough to start attending again.

Don't forget the convention coming up Thursday, July 19 thru Sunday, July 22.

To our Bar Manager Patsey, we are all sorry that you are stuck up in the hospital. Hurry up and heal your bones so that you can be back with us and taking care of our Legion. By the way, Patsey is in Mercy Hospital in Room 253.

Until next time...Have A Nice Day!!!
